PROFILE SUMMARY

AI/ML and Computer Vision enthusiast skilled in Python, OpenCV, Scikit-learn, and NLP. Built real-time CV systems, hybrid recommenders, and data pipelines. Strong project and internship experience with measurable results in accuracy, efficiency, and usability.

EDUCATION

Odisha University of Technology and Research (Formerly CET) Dec 2022 – Apr 2026
B.Tech in Information Technology CGPA: 7.5 / 10

Technical Skills

Languages: Python, Java, **ML Basics:** Scikit-learn, OpenCV, MediaPipe, NumPy, Streamlit, Naïve Bayes, SVM
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook
Core Software Development: OOPS, DSA, SQL

PROJECTS

AI Virtual Mouse Mar 2025
Built a hands-free virtual mouse using real-time hand tracking and gesture control.
Impact: 95% detection accuracy; improved accessibility for users with motor impairments
Tech Stack: Python, OpenCV, MediaPipe, NumPy

Hand Gesture Detection §
Designed an AR/VR-ready system to recognize predefined hand gestures for intuitive control. *Impact: Trained on 200+ gesture samples, reaching 92% accuracy in recognition.*
Tech Stack: Python, OpenCV, MediaPipe

Movie Recommendation & Sentiment Analysis
Built a hybrid recommendation engine combining content-based filtering with NLP-driven sentiment analysis.
Impact: Processed 5,000+ reviews; sentiment classifier achieved 82% F1-score, improving recommendation relevance 15%.
Tech Stack: Python, Scikit-learn, TF-IDF, Naive Bayes, SVM

AI Mental Health Chatbot
Built an AI-powered mental health chatbot with real-time text, voice, and facial emotion analysis for empathetic support. *Impact: Enabled real-time mood tracking with >90% sentiment classification accuracy.* **Tech Stack:** Python, Streamlit, OpenCV, Scikit-learn, GPT API

EXPERIENCE

- Intern Pe Tech** | (May 2024 - Jul 2024) : Built API-integrated responsive interfaces, reducing load time by 30%. Collaborated with cross-functional teams to test, debug, and improve application usability.
- DRDO Research Intern** | (Jun 2025 - Jul 2025) : Processed 100k+ meteorological records; anomaly detection scripts. Reduced data errors by 25%; improved reliability for weather modeling.

LEADERSHIP AND ACHIEVEMENTS

- Member, Zaira Club (2023-2024):** Organized coding sessions & ML workshops.
- Introduction to Cybersecurity Certificate** : Cisco Networking Academy (via Odisha University of Technology and Research)
